

## AHMEN RACING – PARTICIPATION BY CLUB – 2023

### Observations

Both EYC and TS&CC demonstrated significant growth of participation. Well done to those AHMEN representatives. The absence of the J-105 fleet from the ARGOSY Rose Bowl depressed numbers for RCYC.

While we had a RECORD number of boats racing, it was because of a record EIGHT race days since AHMEN had added 33% more races! In other words fewer boats raced on any given day. This is not unexpected, given a decline in racing at many clubs.

The Start 5 participation was down, representing faster boats.

For the eight races, six clubs provided a race committee while Mimico Cruising Club generously provided an RC twice.

During the AHMEN series there were no protests though there was one Request for Redress.

The data source for the participation numbers is exclusively from the result pages on [www.ahmen.ca](http://www.ahmen.ca).

If you would like the entire workbook [Years 2000 to 2023], please ask.
